NCCT recently partnered with the Centers for Medicare and Medicaid Services (CMS) Medicare Learning Network® (MLN). MLN offers courses for coding and billing professionals which can be submitted to NCCT for outside CE approval. These courses are offered free of charge but the NCCT recertification fee still applies (see the Guide to the Recertification Process for more information about submitting outside CE courses for approval).

To access courses from the CMS website please follow the directions below. First time users will need to create a training account.

To register:

- 1 Go to <http://go.cms.gov/MLNProducts> on the CMS website.
- 2 Click on the “Events & Training” tab.
- 3 From this page, click on “Web Based Training”.
- 4 Click on “Log in for course descriptions”.

- 7 Verify your email within 30 minutes using the verification code provided in the email.
- 8 After submitting the code on the MLN website, you can browse the catalog.

Please add MLN@cms.hhs.gov to your address book to prevent MLN communication from going into your spam folder.

- 2 Click on the “Events & Training” tab.
- 3 From this page, click on “Web Based Training”.

MLN CE Courses differ in length and therefore differ in the amount of CE credit awarded (see chart below for a complete course list). Once you have completed a course*, print out the certificate of completion (follow the directions online to print out the certificate). Return to NCCT along with the Application for Outside CE Approval.

Please allow ten business days after submission to process your CE. If you have any questions about this process please contact our customer service department at 800.875.4404.
