

Free Continuing Education Internet Sources for Recertification Credit

NCCT neither endorses nor supports any of the continuing education internet sources listed below, and is in no way affiliated with these companies. NCCT provides this list only as a resource for our credential holders.

- Some sites may have one free course; others may have many.
- Some sites may have a mixture of free courses and courses that require payment to access.
- Some sites may require registration to access free courses.
- All educational activities have not been viewed and completed, and may not be applicable for NCCT certificants.

Documents of completion of activities from any of these internet sites must be submitted for review for recertification credit. The Outside CE Approval for Recertification Credit Application Form must accompany the documents of completion. Review the Outside CE Policy on the NCCT website for specific information before submitting outside CE documents.

Employers may have educational activities available to their employees at no cost. Check with the supervisor, education manager, or Human Resources for information on availability.
